### WHAT'S THE PROCESS?

**Stage 1** After the statement of work is signed and a deposit is paid, we spend the first month building and setting up the commerce solution ready for you to test and configure.

**Stage 2** Once your commerce solution is set up, our designer and our architect will do a workshop with you to establish the level of design customisation you require and any further functionality required as part of a prioritised wish-list.

**Stage 3** Each month, we work through your customisations in order of priority based on the hours allocated in your support agreement.
